CA	2253	Practicum II	Not televised	TBA	Dillon

Educational Outreach Courses

Workshops

Workshops may be taken for credit or non-credit. Call (580) 581-2610 for information.

TO ENROLL FOR CREDIT: Students who have an advisor should see him/her to enroll. Students who do not have an advisor may enroll at the enrollment desk, North Shepler, Room 210.

TO ENROLL FOR NON-CREDIT: Contact Adult and Continuing Education, South Shepler, Room, 420

EARLY ENROLLMENT IS ADVISED: Enrollment in these classes is limited and classes traditionally fill quickly. To secure your enrollment, you must pay the fee before the drop date listed at the front of the schedule.

LATE ENROLLMENT: Enrollments will be accepted, on a space available basis, up to the day prior to the workshop; however, the fee must be paid prior to attending the workshop.

WITHDRAWAL: You may withdraw and receive a full refund up to 48 hours prior to the class meeting. Circumstances resulting in your failure to complete the class may be submitted for review to Adult and Continuing Education, with a request for a grade of "W." This must be done within one week after the last class date. Supporting documentation may be required.

COST: Undergraduate- \$145.00 per semester hour. Graduate- \$170.00 per semester hour. Plus any additional fees if noted below.

DSM-IV INTRODUCTION TO DSM-IV CALL 1136 PSYCH 5021

This is a basic introduction to DSM-IV-TR. Topics covered will include, but are not limited to: history and development of DSM system, clinical/empirical research support of DSM model, DSM classifications, (category approach), use of DSM-IV-TR (issues and limitations), use of clinical judgment(s), DSM-IV coding and reporting, ethnic and cultural considerations, treatment planning. Again, this is a basic workshop introduction. The focus is on generalized understanding and overview of DSM-IV-TR.

INSTRUCTOR: Bob Milan

DATES: Aug 23 and 30, 2008
PLACE: SU 100

TIME: 8:30A – 4:30P

CREATIVE HOMEPAGE DESIGN I

CALL 0190 MM 4191

This workshop will provide participants with necessary skills to plan, organize, develop, and post a simple homepage. Each participant will construct his or her homepage using Dreamweaver (a popular graphical web developmental tool). Participants will also get started with Photoshop (image editing and graphics creation software) to manipulate a few pictures. Students enrolled for university credit will receive a letter grade.

INSTRUCTOR: Dr. Abbas Johari

DATES: Sept 6 and 13, 2008

TIME: 8:30A – 4:30P

PLACE: CETES 104

INTRODUCTION TO HYPNOSIS

CALL 1137 PSYCH 4331

This course will introduce students to a description of the history and process of hypnosis. Does not count for psychology required or elective credit. Counts for general education elective credit. Students enrolled in this workshop for university credit will receive a grade of satisfactory or unsatisfactory.

INSTRUCTOR: Rick Minter

DATES: Sept 6 and 13, 2008

TIME: 8:30A- 4:30P

PLACE: SU 100

INVESTMENT FOR BEGINNERS

CALL 0328 BUS 3881

Most adults need to know how to invest, but not everyone meets the prerequisite for enrolling in an undergraduate investment course. This course requires no prerequisite except a high school degree and covers the essential concepts for investing in stocks and mutual funds. Students will learn how to develop a road map for investing and build an investment portfolio of stocks and/or mutual funds. Students enrolled in this course for university credit will receive a grade of satisfactory or unsatisfactory. A calculator is necessary for this class. Required course material: Textbook, "Investments for Beginners," will be sold on the first day of class at a price of \$7.00

INSTRUCTOR: T.K. Bhattacharya

DATES: Sept 6 and 13, 2008

TIME: 9:00A- 5:00P

PLACE: SS 203

WEAVING CHARLOTTE'S WEB: ACTIVITIES FOR CHILDREN'S LITERATURE

CALL 1065 EDUC 5781

This workshop is designed to provide an overview of curricular activities for Children's Literature for the graduate student with no prior experience in Children's literature. Focus will be on picture books for preschool through 6th grade.

INSTRUCTOR: Dr. Lynda Robinson

DATES: Sept 6 and 13, 2008

TIME: 8:30A- 4:30P

PLACE: NB 1008

INTERVIEWING TECHNIQUES

CALL 0439 COMM 3991

This seminar focuses on the essential dimensions of the job selection and performance appraisals interviews. Students will be videotaped twice while role playing a job selection interview. Students are required to bring a current copy of their most recent resume and a blank videotape. This class is essentially an activity-based, performance-oriented class. Students enrolled for university credit will receive a grade of satisfactory or unsatisfactory.

INSTRUCTOR: Dr. Ron Price

DATES: Sept 6 and 20, 2008

TIME: 8:30A – 4:30P

PLACE: COMM 114

LISTENING

CALL 0438 COMM 3991

This is a workshop designed to articulate the process and the role of listening in oral communication. Among the five types of listening to be discussed is discriminative, comprehensive, therapeutic, critical and appreciative listening. Students will develop listening skills through structured classroom activities and exercises.

INSTRUCTOR: Lloyd Carr

DATES: Sept 6 and 20, 2008

TIME: 8:30A - 4:30P

PLACE: Duncan 125

S/T TI GRAPHING CALCULATOR

CALL 0097 MATH 2491

For students enrolling in College Algebra or Trigonometry, instruction will be on Texas Instrument graphing calculators (primary models, TI's 83, 85, 86 and 89) with emphasis on graphing techniques. Math application on solving for roots/zeros (real and complex), intersection, minimum and maximum points will be covered in detail. Additionally, the graphing of the six basic trigonometric functions will be addressed. The workshop will be designed to help students in math courses which use Texas Instrument graphing technology. Students enrolled for university credit will receive a grade of satisfactory or unsatisfactory.

INSTRUCTOR: Neal Washington

DATES: Sept 6 and Oct 4, 2008

TIME: 8:30A – 4:30P

PLACE: BUR 211

S/T TI GRAPHING CALCULATOR

CALL 0098 MATH 2491

For students enrolling in College Algebra or Trigonometry, instruction will be on Texas Instrument graphing calculators (primary models, TI's 83, 85, 86 and 89) with emphasis on graphing techniques. Math application on solving for roots/zeros (real and complex), intersection, minimum and maximum points will be covered in detail. Additionally, the graphing of the six basic trigonometric functions will be addressed. The workshop will be designed to help students in math courses which use Texas Instrument graphing technology. Students enrolled for university credit will receive a grade of satisfactory or unsatisfactory.

INSTRUCTOR: Neal Washington

DATES: Sept 13 and Oct 11, 2008

TIME: 8:30A – 4:30P

PLACE: DUNC 125

BAG OF TRICKS FOR SUBSTITUTES

CALL 1018 EDUC 3881

So you want to be a substitute? Well, this workshop will help prepare you for the world of the individual classroom. Find out how you can be ready for even the most unusual situation. Learn to use the techniques used by every successful substitute teacher. Understand the dynamics of the school setting. What are the important qualities of a substitute teacher? Walk away from this workshop with a better understanding about the importance of a quality substitute teacher. Sign up now!

INSTRUCTOR: Dr. Anita J. Hernandez

DATES: Sept 13 and 20, 2008

TIME: 8:30A – 4:30P

PLACE: NB 1069

INTRODUCTION TO BUSINESS WRITING

CALL 0585 ENG 3881

Introduces students to the basic principles of effective written communication as applied in a variety of professional settings (e.g. business, industry, government). Provides a basic review of elements of grammar, mechanics, and style as related to workplace writing; trains students in collecting, organizing, presenting, and documenting information in formal reports and in writing other kinds of documents (e.g. business letters, memos, proposals, instructions) appropriate to professional settings; encourages students to develop a sense of professionalism about their writing and to consider issues of audience and purpose when composing workplace documents.

INSTRUCTOR: William Carney

DATES: Sept 13 and 20, 2008

TIME: 8:30A – 4:30P

PLACE: NB 1074

WOODY PLANTS OF THE WICHITA MOUNTAINS

CALL 1196 BIO 2121

This workshop is designed for anyone interested in the trees and shrubs of the Wichita Mountains Wildlife Refuge. Objectives include teaching students the basic anatomy and morphology used to identify woody plants, to be able to use that knowledge to identify native trees and shrubs, and selected natural history and ethnobotany related to these plants. The mornings of each day will be spent in the classroom, and afternoons will be spent in the field. Bring a sack lunch and wear appropriate boots and clothing. Mandatory equipment: Forest Trees of Oklahoma. Oklahoma Department of Agriculture Forestry Services, Pub. 1, Revised ed. 17, 2002: 10x or 20x hand lens.

INSTRUCTOR: Dr. Mike Dunn

DATES: Sept 20 and 21, 2008

TIME: 8:00A – 4:30P

PLACE: Quannah Parker Environmental Ed. Center

FOR THE LOVE OF READING: GETTING A GOOD START

CALL 1064 EDUC 5781

This workshop is designed for the graduate student with no prior experience in teaching and reading to young children. It will provide a repertoire of research-based, skills-based activities for teaching pre-reading skills and beginning reading skills to young children.

INSTRUCTOR: Dr. Lynda Robinson

DATES: Sept 20 and 27, 2008

TIME: 8:30A – 4:30P

PLACE: NB 1008

AP: MAKING WEB ANIMATIONS WITH FLASH

CALL 0191 MM 4191

Student will create digital animations, add basic scripts and publish their animations as SWF files for internet publication.

INSTRUCTOR: Dr. Linda Wright-Smith

DATES: Sept 20 and 27, 2008

TIME: 8:30A – 4:30P

PLACE: CETES 104

OKLAHOMA ECOLOGY AND GEOGRAPHY: PROJECT WILD

CALL 1015 EDUC 3881

This environmental education workshop is intended for all students, providing valuable instructional resources regarding geography, ecology, and natural systems of Oklahoma. Project WILD provides an interdisciplinary, conservation and environmental education curriculum using a variety of practical hands-on-minds-on ways of examining natural systems and habitats particularly those associated with Oklahoma geology, geography, and ecology. The goal is to assist all learners in the development of awareness, knowledge, skills, and commitment to results in making informed decisions concerning the environment. Students will receive college credit and Project WILD certification. Students are expected to wear appropriate clothing for outdoor activities and weather and also to provide for their own basic necessities such as personal amenities such as snacks and drinking water, possible lawn chair, and any needed comfort items. Cameras, field packs, binoculars, etc are optional but encouraged since field trips and hikes are likely aspect of the workshop. There is an additional \$10.00 for Project WILD certification and materials collected at the time of the workshop. Attendance is required at all sessions. Students enrolled for college credit will receive a satisfactory/unsatisfactory grade.

INSTRUCTOR: Dr. Kurtis Koll

DATES: Sept 20 and 27, 2008

TIME: 8:30A – 4:30P

PLACE: Science Complex RM 205

Fee: Standard per-credit-hour + \$10.00

UNDERSTANDING ADHD

CALL 1138 PSYCH 4331

This course will cover current scientific theories about the causal factors with this common developmental disorder. The course will also address coexisting conditions and clinical assessment process. Diagnostic criteria, prevalence, and outcomes will be addressed. Students will receive a letter grade.

INSTRUCTOR: Pat Moran

DATES: Sept 20 and 27, 2008

TIME: 8:30A – 4:30P

PLACE: SU 100

TEAM BUILDING

CALL 1200 COMM 3991

Teamwork is the thread that binds people together in order to accomplish a task. The complexity of the team concept is like artwork – beautiful and inspiring at times – chaotic and conflicted at others. Most professionals want to be a part of a “well-oiled” team. The purpose of this workshop is to actively participate in team building activities and learn how to impact your team’s success through honesty, belongingness, quality of relationships, and participation. Students enrolled for college credit will receive a grade of satisfactory or unsatisfactory.

INSTRUCTOR: Ms. Krystal Brue

DATES: Sept 26 and 27, 2008

TIME: Fri 5:00 – 10:00P; Sat 8:00A – 6:30P

PLACE: COMM 109

INTERPERSONAL COMMUNICATION

CALL 0440 COMM 3991

This workshop will focus on interpersonal communication skills useful in developing and managing relationships -- personal and professional. Special emphasis will be given to communicating under pressure and relating with difficult people. Students enrolled for university credit will receive a grade of satisfactory or unsatisfactory.

INSTRUCTOR: Dr. James Heflin

DATES: Sept 27 and Oct 1, 2008

TIME: 8:30A – 4:30P

PLACE: COMM 114

MIXED MEDIA

CALL 0409 ART 4911

Participants in this workshop will be encouraged to pursue their own original styles while working with a variety of media including handmade paper, watercolor, acrylic, gouache, dry pigments, and inks. Found objects, sketches and ideas will be collected and brought to class for application on paper to make an original mixed media piece of artwork. Students will be encouraged to "loosen up" both in application of media and in their creative thinking. Emphasis will be on design, color, originality, and creativity. Students enrolled for university credit will receive a grade of S or U.

INSTRUCTOR: Lynda Martin

DATES: Sept 27 and Oct 4, 2008

TIME: 9:00A – 5:00P

PLACE: ART 107

CREATIVE HOMEPAGE DESIGN II

CALL 0192 MM 4191

This workshop will provide participants with necessary skills to construct their homepages using Dreamweaver and Photoshop programs. Participants will also implement the graphic principles, screen design rules, and sound and animation attributes into their designs. If time allows, participants will also learn how to create rollover graphics and forms. Students enrolled for university credit will receive a letter grade. Creative Homepage Design I is a prerequisite for this workshop.

INSTRUCTOR: Dr. Abbas Johari

DATES: Oct 4 and 11, 2008

TIME: 8:30A – 4:30P

PLACE: CETES 104

MAKING SENSE OF READING: VOCABULARY AND COMPREHENSION – GRADES 4-6

CALL 1062 EDUC 5781

This workshop is designed to provide an overview of activities for teaching vocabulary and comprehension skills to middle grade elementary age children. It is intended for the graduate student with no prior experience in teaching elementary age children.

INSTRUCTOR: Dr. Sheri Bennett

DATES: Oct 4 and 11, 2008

TIME: 8:30A – 4:00P

PLACE: NB 1069

PUBLIC RELATIONS AND MARKETING

CALL 0451 JOUR 3991

As the world continues toward globalization, public relations has never been more important. Unlike any other time in history, today's public relations officers have the potential to interact with their hometown newspaper and a foreign press in the same day. The workshop will examine public relation and marketing trends both of the past and the present to understand the direction of the field, while also focusing on the practical, everyday experiences which will help students develop a keen understanding of the responsibilities, requirements and duties of today's public relations officers. Students enrolled for university credit will receive a grade of satisfactory or unsatisfactory.

INSTRUCTOR: Adam Callaway

DATES: Oct 4 and 11, 2008

TIME: 8:30A – 4:30P

PLACE: COMM 108

TREATMENT OF SEXUAL OFFENDERS

CALL 1139 PSY 5023

The content of the class will focus on treatment of sexual offenders to explore current treatment methods that have been shown to be empirically validated or evidence has been shown regarding treatment outcomes. It will explore common patterns of behavior and thinking on the part of perpetrators and their victims. It will explore the current Oklahoma law and legal obligations of those who have been identified as sexual offenders. Course credit will be a one hour graduate credit, 15 clock hours of continuing education units for LPC, LMFT, and LBP professionals.

INSTRUCTOR: Harold Langley

DATES: Oct 4 and 11, 2008

TIME: 8:30A – 4:30P

PLACE: SU 100

WINTER BIRDS OF THE WICHITAS

CALL 1197 BIO 2121

This workshop is designed to enable students to find, identify and appreciate local birds. Techniques of studying avian ecology and environmental awareness will be emphasized through classroom exercises, lectures, videos and field trips. Students are required to wear appropriate clothing and footwear and to bring a lunch each day. A good set of binoculars are absolutely necessary and a field guide is strongly recommended. Also, bring a pocket notebook and pencil.

INSTRUCTOR: Dr. Jack Tyler

DATES: Oct 11 and 12, 2008

TIME: 8:00A – 4:00P

PLACE: Quannah parker Environmental Ed. Center

AP: CREATING THE ILLUSION OF 3D WITH ADOBE FLASH

CALL 0193 MM 4191

Students using different techniques to create an illusion of depth with Adobe Flash CS3, students will learn different animation techniques, some scripting and will publish their 3D animations as swf files for internet publication.

INSTRUCTOR: Dr. Linda Wright-Smith

DATES: Oct 25 and Nov 1, 2008

TIME: 8:30A – 4:30P

PLACE: CETES 104

ENERGY AND SOCIETY: PROJECT LEARNING TREE

CALL 1016 EDUC 3881

This environmental education workshop is intended for all students, providing valuable instructional resources regarding ecology and natural systems. Project Learning Tree provides an interdisciplinary conservation and environmental education curriculum using a variety of practical hands-on-minds-on ways of examining forest and woodland ecology and the management of forest resources. The workshop focus is to help participants study their relationship with energy and investigate the environmental issues related to energy's role in society, particularly in Oklahoma. The overall goal is to assist all learners in the development of awareness, knowledge, skills, and commitment to results in making informed decisions concerning the environment. Students will receive college credit and Project Learning Tree certification. Students are expected to wear appropriate clothing for any possible outdoor activities keeping in mind the local weather and to provide for their own necessities such as lunch, drinking water, and other personal amenities. Cameras, field packs, binoculars, etc. are optional but encouraged since field trips and hikes are likely aspects of the workshop. There is an additional \$15.00 for Project Learning Tree certification collected at the time of the workshop. Students enrolled for college credit will receive a satisfactory/unsatisfactory grade.

INSTRUCTOR: Dr. Katherine Hunt

DATES: Oct 25 and Nov 1, 2008
PLACE: Science Complex RM 205

TIME: 8:30A – 4:30P
Fee: Standard per-credit-hour + \$15.00

INTERCULTURAL COMMUNICATION

CALL 0441 COMM 3991

This workshop is designed to introduce the topic of communication between individuals of different cultural backgrounds including cultures of different nationalities. Students will examine and discuss sources of misunderstanding and conflict and will develop methods of communicating more effectively with people from different cultures and backgrounds. Students enrolled for university credit will receive a grade of satisfactory or unsatisfactory.

INSTRUCTOR: Dr. Brad McCoy

DATES: Oct 25 and Nov 1, 2008
PLACE: DUNC 125

TIME: 8:30A – 4:30P

DISSOCIATIVE IDENTITY DISORDER (MULTIPLE PERSONALITY DISORDER)

CALL 1140 PSYCH 4331

This seminar concerns itself with type, and intensity of traumatic antecedents associated with this disorder, as well as psychological and physiological symptom presentation and recovery.

INSTRUCTOR: William Robinson

DATES: Nov 1 and 8, 2008
PLACE: SU 100

TIME: 8:30A – 4:30P

WS: MEDIA LITERACY

CALL 0470 RTV 3931

Television is a major part of American Life. Information and entertainment are easily accessible by various forms of media. Through TV, powerful messages are provided to the viewer. In forming opinions and making decisions based on what is portrayed through TV, the user must understand the media as well as the message. The workshop, Media Literacy, is designed to create knowledge and active users of media. Topics include: message manipulation, evolution of TV, First Amendment issues, TV's influence on society, and much more. Students enrolled for this workshop will receive a letter grade.

INSTRUCTOR: Dr. Matt Jenkins

DATES: Nov 1 and 8, 2008
PLACE: COMM 114

TIME: 8:30A – 4:30P

THE WICHITA MOUNTAINS ELK

CALL 1198 BIO 2121

Designed for teachers, youth group leaders, naturalists, outdoorsmen and others interested in developing an appreciation of elk in a natural environment, this workshop will study the species from biological, cultural, and historical perspectives. Hands-on exercises, directed discussion and audiovisuals will be utilized in the classroom, and a major field trip will be conducted on Sunday morning. Sack lunches will be needed and a telescope or binoculars are strongly recommended.

INSTRUCTOR: Dr. Jack Tyler

DATES: Nov 15 and 16, 2008
PLACE: Quannah parker Environmental Ed. Center

TIME: 8:00A – 4:00P

CREATIVE HOMEPAGE DESIGN III

CALL 0194 MM 4191

This workshop will provide participants with necessary skills to develop professional homepages using (a) Dreamweaver and Photoshop programs and (b) Cascading Style Sheets (CSS) templates. CSS provides continuity in appearance and layout across the various pages. Participants will also implement the graphic principles, screen design rules, and JavaScript rollover and slideshow into their designs. If time allows, participants will also learn how to develop and place a flash-based slide show on the first page of their homepages. Students for university credit will receive a letter grade. Creative Homepage Design I and II are prerequisites for this workshop.

INSTRUCTOR: Dr. Abbas Johari

DATES: Nov 15 and 22, 2008
PLACE: CETES 104

TIME: 8:30A – 4:30P

THE SCIENCE OF SLEEP

CALL 1141 PSYCH 4331

For an activity that accounts for a third of one's life, sleep has always been a mystery. What is sleep and why do we need it? This workshop will focus on these questions and many others in regard to sleep. The workshop will examine the enormous strides made by sleep researchers in understanding how sleep occurs in humans and other animals, and the nature of sleep disorders. Areas of discussion will include circadian rhythms, dreams, sleep and health, common sleep problems, and getting a good nights sleep. Students enrolled for university credit will receive a letter grade.

INSTRUCTOR: David Schmahl

DATES: Nov 15 and 22, 2008
PLACE: SU 100

TIME: 8:30A – 4:30P

WONDERS OF WETLANDS

CALL 1017 EDUC 3881

This workshop is intended for all students and provides valuable instructional resources regarding our water resources and the value of wetlands. The materials, resources, and instructional content are useful for all students. Wonders of Wetlands is a Project WET outreach providing an interdisciplinary conservation and environmental education curriculum using a variety of hands-on-minds-on ways of examining wetland ecology and conservation from both the land owner's and community's perspective related to wetland usage. The goal is to assist all learners in the development of awareness, knowledge, skills, and commitment to results in making informed decisions concerning the environment. Students will receive college credit and Wonders of Wetlands certification. Students are expected to wear appropriate clothing for possible outdoor activities keeping in mind the local weather and to provide for their own necessities such as lunch, drinking water, and other personal amenities. Cameras, field packs, binoculars, etc. are optional but encouraged since field trips and hikes are likely aspects of the workshop. There is an additional \$10.00 for Wonders of Wetlands certification collected at the time of the workshop. Students enrolled for college credit will receive a letter grade.

INSTRUCTOR: Dr. Kurtis Koll

DATES: Nov 15 and 22, 2008
PLACE: Science Complex RM 205

TIME: 8:30A – 4:30P
Fee: Standard per-credit-hour + \$10.00

HUMAN-ANIMAL CONNECTION

CALL 1142 PSY 4331

This course will discuss the various kinds of relationships that people share with animals. Topics covered will include:

- Animal assisted therapy
- Service animals for people with disabilities
- The relationships between animals and human physical/mental health
- Animals in the lives of children
- Animals in the lives of the elderly
- Animals in institutions (nursing homes, mental institutions)
- Family pets and grief over pet loss
- The link between animal abuse and domestic violence

Does not count for Psychology required for elective credit, but counts for General Education elective credit. Students enrolled for university credit will receive a grade of satisfactory or unsatisfactory.

INSTRUCTOR: Dr. Justina Powers

DATES: Nov 29 and Dec 6, 2008
PLACE: SU 100

TIME: 10:00A – 6:00P
