New Business:

The request to appeal suspension brought by (Student) was heard. Registrar confirmed that the entry marking suspension on the student's transcript could not be removed, however the committee could waive the requirement that the student sit-out a semester before taking courses again.

Dr. Hite moved that the student's suspension enrollment hold be waived and that the student be allowed to continue with her course work under the plan (Student) presented to the Council. Dr. Dennis seconded the motion.

The motion was unanimously approved because the student had documented in writing a clear understanding of the cause of her academic difficulties, had demonstrated evidence of ability to be academically successful in both her undergraduate degree and some of her graduate level courses and had a written plan of how to be successful moving forward including taking only one course at a time.
