Each year the National Survey of Student Engagement (NSSE) asks students at hundreds of colleges and universities to reflect on the time they devote to various learning activities. The topics explored are linked to previous research on student success in college.

Results from NSSE can provide prospective students with insights into how they might learn and develop at a given college. To help in the college exploration process, NSSE developed A Pocket Guide to Choosing a College to give students and their families key questions to ask during campus visits.

The following responses were provided by 456 CU students on the 2014 survey.

### Academics

#### How much time do students spend studying each week?

First-year (FY) students spent an average of 12 hours per week preparing for class while seniors spent an average of 14 hours per week.
